Commissioner Doorn suggested having a School Zone sign on Grand Street to alert traffic to slow down at the proposed crossing on Clay Street.

Trustee Rochholz suggested that the goals be re-prioritized to allow the Village to implement some changes immediately, and acknowledging other goals will take a much longer period to achieve.

Trustee Mastenbrook questioned if it is worthwhile to have a Master Plan without sanitary sewer, and that sanitary sewer is the Village's #1 priority. She stated that the majority of goals hinge on having sanitary sewer.

Trustee Stodola stated he is concerned about snow removal if the Village created additional parking areas.

Commissioner Schmitt stated that the Village needs a regional approach to obtaining funding for sanitary sewer. He stated that the businesses were aware there was no sanitary sewer at the time they purchased their businesses. Schmitt urged local leaders to contact local, state and federal officials to obtain funding.

Commission Pfof state that the Village needs to have sanitary sewer for both business and residential development. She stated that people do not have the funds to pay for it, so there must be a funding mechanism in place in order to get them.

By general consensus, the Committee's agreed that the goals should be re-organized in terms of ease, cost, and grant funding opportunities, and further broken down into categories as follows: Traffic, Business, Housing and Recreation.

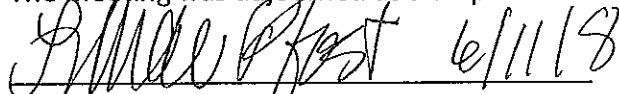

- c) Discussion took place regarding the Draft PUD Addendum for Clark Logic. Manager Lutz explained that Attorney Soltis had drafted the addendum that was being presented.
